THE SUEZ

took with her on Tuesday afternoon many of the well-loved of Honolulu, but public interest centres more around three of them than around the rest, Dr. McKibbin, Mr. S. Spencer, and M. J. A. Hassinger with his wife and family.

Dr. McKibbin goes to Europe, via the United States and Canada, for an extended tour of six months. It is not our intention to enumerate his many services to the country, but we can say that they have been partially recognized in the attentions paid him prior to his departure by His Majesty, who conferred on him the Order of Kalakaua, and Her Majesty the Queen Dowager, who entertained him the previous evening at a party, and came down with *leis* to personally bid him farewell. We trust to see him on his return refreshed with his travels and willing to work again for the benefit of the country and people he has so long served faithfully in the past. We are sure, too, that he will increase largely all the favorable impressions of this country that now exist abroad.

Mr. J. A. Hassinger goes to enjoy a well-earned holiday of two months in the States. He will leave his wife and family there for a few months after his return. Although we shall miss his genial face and jovial kindness, we are glad to think that he has now an opportunity of enjoying a well-needed rest, which, we are sure he, too, will spend in acquiring valuable information to be used for the general benefit on his return.

An exciting race between 5 boats belonging to the Russian man-of-war took place last evening.

A Government water-cart is much needed. It was promised, but it has never yet been obtained.

By the Suez on Tuesday 3456 letters and about 1000 newspapers were sent. The mail keeps on increasing.

The trial of Akana and Akiona on a charge of accepting bribes comes off this morning at the Supreme Court.

The large telescope on a stand now in J. W. Robertson's is to be raffled as soon as possible, on Saturday probably.

AMONGST the Chinese passengers by the City of Sydney were a Chinese pastor and assistant for the Chinese mission here.

The Chinese from the City of Sydney were handed over to the Board of Immigration yesterday afternoon, and bonds were taken.

TO-NIGHT the annual meeting of the Y. M. C. A. will be held in the Bethel Vestry. New officers will be elected and the reports of the retiring officers read.

A SUBSCRIBER wants to know "whether it is the intention of the Government to run the people living makai of the railroad terminus on Beretania street out of the country, with the dust or not? A few gallons of water daily would prevent it."

A considerable amount of excitement has been raised in the minds of the citizens of Honolulu concerning the Chinese influx. As a consequence rumours are started of the dozen. The latest is that the revolver trade has taken a sudden boom, the Chinese being the principal customers.

We are sorry to find that a disciple of Count de Zaba and a man so well acquainted with Russian history could have made such a slip in history, as the *Gazette* says it did. We, of course, are sorry that we didn't know better than to take its statements for granted without inquiry and research, but we shall not so offend again.

A new Kerosene Warehouse is being built but is not yet finished. The present one is full. In the meantime there are about 2000 cases of the oil on Brewer's wharf and some of the cases are leaking. Suppose some one should drop a lighted match or a cigar there what would be the result with the present high winds? Why not put them out on the plains and hire a watchman.

On Tuesday night late the bar-keeper of one of the saloons told a man to go out, as he wanted to shut up. The man being large, and the bar-man small, refused. After a few more words the stranger took up a billiard cue and broke it over the head of the other, and a glass or two was thrown at him in return. In the meantime the proprietor and some persons outside came in and speedily ejected the unwelcome stranger. Damages: a cue, lamp and glasses broken.

THE P. C. A. of yesterday contain the following paragraph: "The steamship Abergeldie sailed March 2, 1883, from St. Michaels, Azores, with 264 men, 195 women, 119 children above 12 years of age, 329 children from 1 to 12 years of age, 36 infants due, say in all April." We would like to know where they obtained the information contained in the last seven words and why they don't give similar information in regard to months other than April.
